

Hiring: Technical Trainer – Cisco CCNA (200-301)

Xavric Solutions is hiring a Technical Trainer to deliver our program 'Cisco CCNA Professional Network Administration' — focused on routing, switching, wireless, security, automation, and end-to-end Cisco network configuration.

Role Overview

Deliver offline training on:

- Networking fundamentals: OSI/TCP-IP, IPv4/IPv6, subnetting
- Cisco IOS, CLI operations, configuration & device management
- VLANs, Inter-VLAN routing, STP, EtherChannel & redundancy
- Routing (IPv4/IPv6 static routes, OSPF), NAT/PAT, DHCP, DNS
- Device security, SSH/Telnet, ACLs, port security & threat protection
- Wireless fundamentals & basic WLC configuration
- WAN technologies, HSRP/VRRP/GLBP, QoS basics
- Syslog, SNMP, NTP, troubleshooting & monitoring
- Intro to Cisco DNA Center, APIs & network automation
- Guiding students through labs and CCNA certification preparation

Requirements

- Experience: 0 – 5 years (Freshers welcome)
- College professors & IT professionals can apply as part-time
- Strong understanding of networking fundamentals and Cisco technologies
- Hands-on experience with routers, switches, VLANs, routing protocols & ACLs
- Knowledge of wireless basics and network automation (Python/APIs) is a plus
- Ability to teach using real labs, simulations & troubleshooting examples

Location & Mode

- Location: Bhopal
- Mode: Offline (in-center)
